## Why To Buy Brand New With Pro Fry Ltd?

– Second hand Fish & Chip vans have more than likely been used for a long time, have a greasy build up, the warranty has ran out and the mileage has built up on the van, leaving yourself liable in the event of a breakdown/equipment failure. Buying new gives you the protection against these things. If you buy through Pro Fry Ltd you get manufacturers warranty, equipment warranty and great customer aftercare.

– We fit the latest Regal Ranges to our Fish & Chip vans, meaning they are fully up to date with safety equipment, temperature gauge's, heated top boxes and much more. This allows you to have a high performance frying range on a mobile vehicle.

– By buying brand new from Pro Fry Ltd, you can be assured you are getting a top quality product, built with the most reliable, fully tested appliance's to make your business run as smoothly as possible. When buying second hand, you will more than likely have to get everything tested and possibly have to spend loads getting appliances and other areas repaired or worse...replaced!

**Don't be fooled by a cheap second hand price as it will cost you more in the long run!**
